CAPTAIN ANGELA WASHINGTON, *Special Services*

CAPTAIN RAYMOND DEJOHN, *Administrative Division*

CAPTAIN EDILIA SURMAN, *Community Services Division*

November 3, 2016

To Whom It May Concern:

For the last eighteen years, it has been my honor to serve as the Chief of Police of the City of Homestead, Florida. During my tenure as Chief and as a Police Officer with this department, I have had the pleasure to become acquainted with a perimeter security product by the name Solarbeam™. This technology is manufactured by a company headquartered in our City.

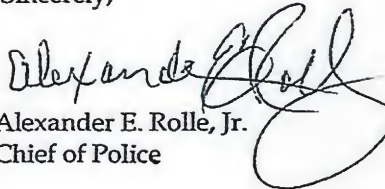

Solarbeam™ products have been purchased by the City of Homestead for the perimeter security of over 13 different city-owned facilities. Homestead began purchasing Solarbeam™ security systems in approximately 1996 and continues to purchase them as of today, as needed. Some of these protected facilities include an electric generation plant, water treatment facility, several large power substations, City procurement office, parks, senior citizens center and recreation facility.

These security systems provide reliable, cost-efficient and time tested notification of a perimeter breach by an intruder. Due to its wireless technology, this product is easy to install and maintain. We consider Solarbeam™ a partner in crime deterrence and law enforcement within the City of Homestead.

I am pleased to recommend the installation of Solarbeam™ products for inclusion in any perimeter security solution.

Should you require additional information, please feel free to contact me at office number (305)224-5530.

Sincerely,

  
Alexander E. Rolle, Jr.  
Chief of Police
